

No.1 Choice **Eco-Friendly** **Electric Boiler Collection**

The ultimate solutions for all types of residential and commercial
central heating and instantaneous hot water

2021
Collection

Leaders in the electric heating and hot water industry

Innovative heating and hot water specialists, The Electric Heating Company, have developed their product portfolio to accommodate almost any Central Heating and Hot Water requirement.

From the comprehensive Comet Electric System Boiler to the space saving SlimJim Electric Flow Boiler our product knowledge and Technical assistance is unrivalled in the Heating and Hot Water industry. Our products have been designed with both the installer and homeowner in mind and as such all the controls used with our products are contemporary and user friendly.

We can supply a choice of Boiler Packs and our Electric Combination Boiler for a complete Heating & Hot Water installation. The Electric Boiler, Cylinder and Controls are all included within our exclusive packages. EHC are renowned for always putting the customer first and have won National Customer Service Awards in recognition of our efforts.

From initial enquiry to completed order we believe in focusing our attention on Customer Care.

The personnel at The Electric Heating Company are approachable, very experienced and committed to ensuring you have the best available options when choosing your products.

Our Products are specified on many Contracts throughout the UK and our customer base includes Social Landlords, Private Landlords, Developers, Homeowners and the general Heating Trade. In addition to our product catalogues our websites contain Installation & Technical Manuals, Energy Information and a host of relevant details relating to our products. You can also view our informative product videos from the website.

EHC offer an Accredited Heating Contractors scheme that operates throughout the UK. For more information call us on 01698 820533 for advice, brochures, technical information or alternatively visit our website at www.electric-heatingcompany.co.uk

Accessories & Controls	23

When Installing an Electric Boiler

- Electric Boilers are 100% efficient therefore there is no requirement to oversize the appliance
- If an efficient Direct Cylinder is present within the property install the Boiler for Heating only
- Heat Loss calculations should be made in accordance with the latest regulations
- Most 1, 2 & 3 bedroom properties are generally suitable for an Electric Boiler
- Properties with a high hot water demand are better suited to an Indirect Cylinder with an 'S' Plan configuration
- When installing an Electric Boiler always ensure that the incoming electrical supply is sufficient for the Boiler Output
- To accommodate "Off-Peak" electricity tariffs it is recommended that a Programmer with a facility for 3 On/Off periods is installed
- Electric Boilers are suitable for both Volt Free, Hard Wired and Wireless Thermostats and Controls
- If the property has an electric shower it is advisable that a Shower Flow Sensor or Relay Interrupt is installed to prevent the Electric Boiler and Electric Shower operating at the same time
- Electric Boilers require no mandatory annual maintenance
- Electric Boilers have no flue requirements
- EHC offer 3-Phase Electric Boilers that are suitable for light commercial purposes such as; offices, factory units, pubs, etc.

The Electric Boiler Specialists

- ✔ Installation is quicker than a gas system
- ✔ The wiring of an Electric Boiler is the same as an Electric Shower
- ✔ Electric Boilers can be used for Open Vented Systems
- ✔ Can be used as back-up for Heat Pumps
- ✔ Standard radiators and valves can be used with Electric Boilers
- ✔ EHC Electric Boilers have a soft start to avoid power surges
- ✔ Electric Boilers are almost silent when operating
- ✔ Electric Boilers emit no noxious fumes or gases
- ✔ Can be used with underfloor heating systems
- ✔ EHC only use and recommend High Efficiency ErP Smart Pumps

Mercury Combi Boiler

The Mercury Combi is the Premium Electric Boiler Solution for Heating & Hot Water with the added benefit of Weather Compensation & Advanced Service Diagnostics

Mercury Electric Combi Boilers are suitable for small properties that have a Shower and Hot Water outlets for sinks.

It is not recommended that they are used for properties with Baths as generally the flow rate is insufficient to fill a Bath in a suitable timescale.

In the event that there is a Bath in the property the Mercury can be used to Heat the Radiators and a Hot Water Cylinder via an 'S' Plan configuration for Domestic Hot Water purposes.

If 3Phase Electricity is available our 19kW & 26kW Mercury Boilers would have sufficient flow rates to fill a Bath in a suitable timescale.

If you are unsure of the Model and Output you require please feel free to contact our Sales Team on **01698 820533** or visit www.electric-heatingcompany.co.uk

Mercury Boiler Control Panel

**Boiler
5 year
guarantee**
**T&C's Apply*

The Mercury boiler brings a new era to the Electric Combi Boiler market with the introduction of External Weather Compensation & Bare-Wire Heating Element technology for Domestic Hot Water.

Bare-Wire elements are more robust in tackling the formation of lime scale due to operating at higher temperatures with a lower surface area.

The Mercury also features advanced service diagnostics via the main interface.

*Our 5 Year Warranty is offered on Boilers which are registered within 60 Days of purchase, For full Warranty T&C's please visit our website.

The All in One Electric Boiler Solution

Electricity consumption of the Mercury Boiler is 100% efficient, boasting automatic power modulation.

With no flue requirements, the Boiler rapidly provides Heating and Domestic Hot Water.

Bare wire system - no limescale on the immersion heaters

Instant Hot Water for Washing & Showering

Eco friendly with Weather Compensation

NTC Temperature control system

Large digital screen

Quiet operation

Compatible with all Volt Free Programmers & WiFi Thermostats

All In One Solution

- ✔ Automatic Power Modulation
- ✔ Compact Design
- ✔ 100% efficient
- ✔ Supply of DHW at constant set temperature
- ✔ Rapid Heat Up Times
- ✔ 3 Bar Safety Protection
- ✔ Underfloor Heating Mode
- ✔ Safe operation with automatic air vent
- ✔ Low System pressure warning
- ✔ Smart ErP circulation pump
- ✔ Comprehensive Diagnostics
- ✔ Enhance HW flow due to bare wire technology
- ✔ Fully Modulating Control System
- ✔ Compatible with all Volt Free external controls
- ✔ Limit thermostat protection
- ✔ Automatic pump run to prevent seizure
- ✔ Large Display
- ✔ Low running noise
- ✔ Single and 3phase boilers available
- ✔ Can be installed on internal walls as there is no flue required

Comet Combination Unit

The Comet Electric Boiler Combination Unit offers the comfort and convenience of wet central heating and domestic hot water for domestic properties with no access to mains gas.

It is a fully controllable 24/7 packaged unit housed in an elegant enclosure and is available in 9kW, 12kW or 14.4kW Outputs with an internal 140 Litre Duplex Stainless Steel Hot Water Cylinder. The Boilers internal plumbing is configured to an 'S' Plan design that also has an in-built magnetic filter for added protection and includes pre-plumbed Expansion Vessels for both the Heating and Domestic Hot Water circuits.

Supplied with an external Tundish and Domestic Hot Water Control Valve and a fully programmable Controller and Wireless Room Thermostat to provide full control of both the Central Heating and Domestic Hot Water.

Latest Features Include

- ✔ Inbuilt Programmer
- ✔ ErP Hot Water Control
- ✔ ErP Smart Pump
- ✔ Weather Compensation
- ✔ Tank Cleansing Feature (Anti Legionella)
- ✔ Optional Solar DHW PV Connection
- ✔ Wireless Thermostat

*Boiler
5 year guarantee
*T&C's Apply
Stainless Steel
Cylinder 10 year
guarantee*

The Boilers inbuilt controller "Navigation Button" gives you easy access to the boilers settings by simply scrolling through the menu. There are various pre-set times that can be easily adjusted to suit your heating & domestic hot water requirements. For ease of installation a Wireless Room Thermostat is supplied which can be located anywhere within the property.

The unit has In-built Weather Compensation which will automatically modulate and reduce the Boilers input temperature in relation to the external temperature which reduces Boiler cycling and could save up to 15% energy usage. A further energy saving measure would be to add our optional Titanium PV Immersion heater to the Cylinder which when connected to a Solar PV diverter will automatically start heating the cylinder within the unit.

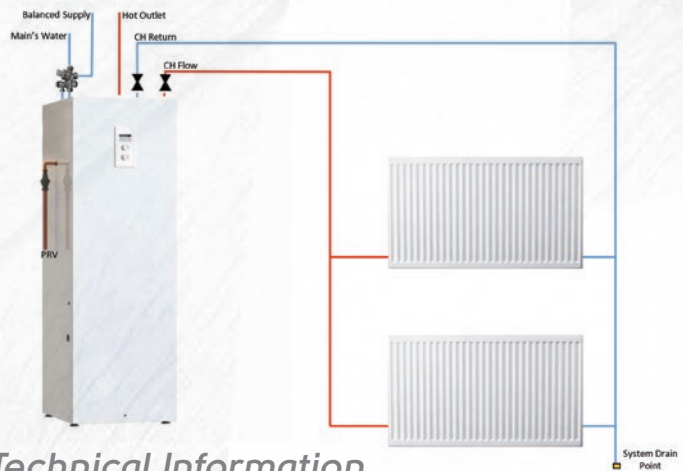

Comet Combination Unit Features

- ✔ Available in 9kW, 12kW & 14.4kW outputs
- ✔ Full Power Modulation
- ✔ Stainless Steel Heat Exchanger with Automatic Air Vent
- ✔ High Temperature Thermal Cut-Out
- ✔ Digital Pressure Gauge
- ✔ In Built Weather Compensation
- ✔ Integral Programmer with system diagnostics
- ✔ Wireless Thermostat Included
- ✔ ErP Smart Pump
- ✔ 100% Efficient
- ✔ Magnetic Filter

Stainless Steel Cylinder & System Features

- ✔ 140 Litre Duplex Stainless Steel Cylinder
- ✔ ErP Smart Hot Water Control System
- ✔ T&P Relief Valve
- ✔ DHW & HTG Zone Valves
- ✔ Drain Point
- ✔ Optional Immersion Heater or Solar PV Heater
- ✔ Inbuilt Programmer
- ✔ Tank Cleansing feature

EHC Shower Flow Sensor

Back-up Immersion Heater

Solar PV Immersion Heater

Fusion Comet Electric Boiler

Comet Electric System Boilers are designed to eliminate unnecessary external plumbing and pipe work.

They are the ideal choice for wet central heating and underfloor heating systems. It has been engineered to include the pump, auto-air vent, expansion vessel, auto-bypass and expansion vessel within the compact casing. For added safety the Boiler also incorporates a High Temperature Thermal cut-out for added protection.

Our single phase Boiler outputs are 6kW, 9kW, 12kW with the 14.4kW available for properties that require larger outputs.

To ensure maximum efficiency, all Comet Boilers incorporate six stage heating using a stainless steel heat exchanger. This unique facility will modulate the Boiler to reduce electricity consumption and running costs.

The easy-to-use control panel provides operating temperatures for flow and return, system flow rate and kW output information and enables the installer to utilise the inbuilt self-diagnostic feature during installation or routine maintenance.

The operating temperature of the Boiler can be adjusted from 20 degrees through to a maximum 85 degrees.

In light commercial properties with a 3-Phase electricity supply, we supply 12kW to 48kW 3-Phase output Boilers. For multiple Boiler installations it is also possible to install them in series to suit non domestic situations (see page 14).

Boiler Features

- Outputs from 6kW to 14.4kW
- Integral sealed system kit
- Virtually silent in operation
- Suitable for central heating only or central heating & hot water
- Can be used for underfloor heating
- No Mandatory Maintenance required
- 100% efficient
- Stainless Steel Heat Exchanger
- 5 Year Guarantee*
- Removable bottom tray

Electronic Features

- Volt-free Control Connections
- 6 Stage Heating
- Integral System Diagnostics
- Easy-Fit Connectors & Sensors
- In-Built Fault Finding Diagnostics
- High Temperature Thermal Cut-Out
- Vortex Flow Temperature Sensor
- Digital Pressure Gauge

3 Phase Fusion Comet Electric Boiler

The perfect solution for a wet central heating system in Light Commercial Properties, Hotels, Guest Houses and large properties

The perfect solution for a wet central heating system in light commercial properties, hotels, guest houses and large properties with 3 Phase electricity.

Our fully modulating, powerful 3 Phase Electric Boilers have been engineered to include a 6 Stage Heat Exchanger, Automatic Air Vents, Grundfos Smart Multifunction Pump, Pressure Sensor, Flow & Return Temperature Sensors and High Temperature Safety Cut-Out.

Our 3 Phase boiler outputs are 12kW, 14.4kW, 19kW 23kW and 39kW.

To ensure maximum efficiency, all Comet Boilers incorporate six stage heating using a heat exchanger. This unique facility will modulate the boiler to reduce electricity consumption and running costs.

The operating temperature of the boiler can be adjusted from 20 degrees through to a maximum 85 degrees.

The easy-to-use control panel provides operating temperatures for flow and return, system flow rate and kW output information and enables the installer to utilise the inbuilt self-diagnostic feature during installation or routine maintenance.

Using conventional wet system radiators and valves the Boilers can be installed in any property type with 3-Phase Electricity to offer an effective and efficient heating solution. For larger output requirements, these boilers can be combined on a low loss header to increase the overall output which gives endless install solutions.

Boiler Range	kW	12kW	14.4kW	19kW	23kW	39kW

Fusion Comet 48kW 3 Phase Electric Boiler

The perfect solution for a wet central heating system in light commercial properties, hotels, guest houses and large properties with 3 Phase electricity.

3 Phase Fusion Electric Boilers can be installed in any property type with 3-Phase Electricity to offer an effective and efficient heating solution using conventional wet system radiators and valves. For larger output requirements, these Boilers can be combined on a low loss header to increase the overall output which gives endless install solutions.

This fully modulating, powerful Electric Boiler has been engineered to include insulated duplex Stainless Steel Heat Exchangers, Twin Auto Air Vents, Grundfos or Wilo Pump, Pressure Gauge, Flow & Return Temperature Sensors and Dual High Temperature Safety Cut-Outs.

All Fusion Electric Boilers can be installed for Heating only or Heating and Domestic Hot Water purposes when used with an 'S' Plan configuration in conjunction with our Twin Channel Heatpack.

The operating temperature of the Boiler can be adjusted from 40 degrees through to a maximum 85 degrees.

The easy-to-use control panel provides operating temperatures for flow and return, system flow rate and kW output information and enables the installer to utilise the inbuilt self-diagnostic feature during installation or routine maintenance.

- High Temperature Thermal Cut-Out
- ErP Smart Multifunction Pump
- Vortex Flow & Temperature Sensor
- Digital Pressure Gauge

*Our 5 Year Warranty is offered on Boilers which are registered within 60 Days of purchase, For full Warranty T&C's please visit our website.

SlimJim Electric Boiler *The multi-purpose Boiler where space is at a premium.*

The compact design of the boiler makes it ideal for heating applications where space is at a premium. The SlimJim is traditionally installed by professional heating engineers in properties such as apartments, domestic dwellings, holiday homes and light commercial properties. Our single phase Boiler outputs are 4kW, 7kW, 10kW, 12kW with the 14.4kW available for properties that require larger outputs.

The SlimJim is a fully controllable Electric Flow Boiler which is 100% efficient and designed to maximise cupboard space. The Boiler also has an easy-fit front cover for future maintenance purposes. It has a user-friendly Front Control Panel incorporating heat mode and fault finding indicators and easy-to-use temperature control setting. The stainless steel Heat Exchanger is fully insulated to minimise heatloss.

The Boiler temperature range can be set between 30 degrees and 80 degrees which also makes it a suitable choice for wet system and underfloor heating applications.

Safety is of paramount importance and as such the SlimJim Boiler incorporates a unique high temperature safety cut-out device to protect the boiler.

The SlimJim can be supplied as a Boiler only or complete with a choice of Heat Packs.

Boiler Features

- Outputs from 4kW to 14.4kW
- Virtually silent in operation
- Suitable for central heating only or central heating & hot water
- Can be used for underfloor heating
- No Mandatory Maintenance required
- 100% efficient
- Stainless Steel Heat Exchanger
- 5 Year Guarantee*
- Removable bottom tray

Electronic Features

- Volt-free Control Connections
- 6 Stage Heating
- Integral System Diagnostics
- Easy-Fit Connectors & Sensors
- In-Built Fault Finding Diagnostics
- High Temperature Thermal Cut-Out
- Digital Pressure Gauge

SlimJim Electric Boiler

Direct Cylinder Packages

The compact design of the SlimJim Electric Flow Boiler makes it ideal for heating applications where space is at a premium.

Space Saver

High Quality

Energy Efficient

Great Performance

Virtually Silent

Best Price

- ✔ Outputs from 4kW to 14.4kW
- ✔ Virtually silent in operation
- ✔ Boiler provides central heating only & domestic hot water is provided by the direct unvented cylinder
- ✔ Can be used for underfloor heating
- ✔ 100% efficient
- ✔ Stainless Steel Heat Exchanger
- ✔ Includes Run Dry Sensor
- ✔ No flue required
- ✔ No fumes and no risk of explosion

Our one stop shop service enables us to provide SlimJim Electric Boiler and Cylinder packages with associated controls. This service ensures that all your heating and hot water appliances carry the EHC Brand and simplifies your future warranty support

Code	Description	Number of Bedrooms
EHCSJ7/120	SLIM JIM 7KW/120L ELECTRIC BOILER c/w DIRECT CYLINDER	1
EHCSJ10/120	SLIM JIM 10KW/120L ELECTRIC BOILER c/w DIRECT CYLINDER	1 or 2
EHCSJ10/150	SLIM JIM 10KW/150L ELECTRIC BOILER c/w DIRECT CYLINDER	1 or 2
EHCSJ10/180	SLIM JIM 10KW/180L ELECTRIC BOILER c/w DIRECT CYLINDER	2

EHCSJ15/180	SLIM JIM 14.4KW/180L ELECTRIC BOILER c/w DIRECT CYLINDER	3/4

What's Included

- ✔ Choice of SlimJim Boiler 5 Year Warranty
- ✔ Choice of Direct Unvented Stainless Steel Cylinder 25 Year Warranty
- ✔ Single Channel Programmer 2 Year Warranty
- ✔ Room Thermostat 2 Year Warranty
- ✔ 8 Litre Robo Kit 2 Year Warranty
- ✔ Auto Air Vent 2 Year Warranty
- ✔ High Quality ErP Smart Pump 2 Year Warranty
- ✔ Lockshield Valves 2 Year Warranty
- ✔ Magnetic Filter 2 Year Warranty

SlimJim Electric Boiler

Indirect Cylinder Packages

The SlimJim is traditionally installed by professional heating engineers in properties such as domestic dwellings, holiday homes and light commercial properties

- ✔ Outputs from 4kW to 14.4kW
- ✔ Virtually silent in operation
- ✔ Can provide central heating & hot water using our Boiler Heat Packs
- ✔ Can be used for underfloor heating
- ✔ 100% efficient
- ✔ Stainless Steel Heat Exchanger
- ✔ Includes Run Dry Sensor
- ✔ No flue required
- ✔ No fumes and no risk of explosion

Accessories & Controls

EC10001 - Single Channel Programmer

- ✔ Selection of Modes -
- ✔ 24 Hours, 5/2 Day & 7 Day
- ✔ 2 or 3 ON/OFF Selector
- ✔ Preset program settings
- ✔ Standard Back Plate
- ✔ Suitable for Wired Installations or used in conjunction with EC10015 RF Thermostat.

EC10002 - Twin Channel Programmer

- ✔ Selection of Modes -
- ✔ 24 Hours, 5/2 Day & 7 Day
- ✔ 2 or 3 ON/OFF Selector
- ✔ Preset program settings
- ✔ Standard Back Plate
- ✔ Suitable for Wired Installations or used in conjunction with EC10015 RF Thermostat.

EC10003 - Three Channel Programmer

- ✔ Selection of Modes - 24 Hours, 5/2 Day & 7 Day
- ✔ 2 or 3 ON/OFF Selector
- ✔ Preset Program Settings
- ✔ Standard Back Plate
- ✔ Suitable for Wired Installations or used in conjunction with EC10015 RF Thermostat.

EC10012 - Room Thermostat

- ✔ Hard Wired
- ✔ Diaphragm Temperature Sensor
- ✔ Ideal for Surface or Pattress Box mounting
- ✔ 10°C- 30°C Set Point

EC10015 - EHC Wireless Room Thermostat

- ✔ Wireless Communication
- ✔ 230V or Volt Free Switching capability
- ✔ Ideal for Surface Mounting or Free Standing
- ✔ 5°C - 35°C Set Point
- ✔ Simple Control Dial with sizeable Digital Screen
- ✔ Quick easy installation

EC10011 - Twin Channel Heatpack

- ✔ Twin Channel Heatpack
- ✔ Room Thermostat
- ✔ Cylinder Thermostat
- ✔ Wiring Centre
- ✔ 2 x 2 Port Zone Valves

EC10005 - Auto Air Vent

- ✔ 15mm Compression
- ✔ Suitable for Vented & Sealed Systems

EC10006 - Grundfos UPM3 or Wilo Pump

- ✔ High Efficiency ErP Compliant.
- ✔ Speed-controlled, high-efficiency Pump fitted with electronically commutated motor (ECM)
- ✔ Uses 85% less Electricity compared to standard Pumps

M0235 - Magnetic Filter

- ✔ In-line Filter with Strainer and Magnetic stack
- ✔ 3/4" BSP connections

EC10007 - Pump Valve

- ✔ 22mm Compression lockshield Valve
- ✔ Supplied with Pump Washer

ESFS15C - Shower Flow Sensor

- ✔ 15mm Compression Fittings
- ✔ Auto Shutdown of the Boiler when the Shower is running
- ✔ Normally open & normally closed connections supplied
